

The introduction of swing arm garbage truck

Characterized by separate from the truck, garbage box can be hydraulically operated up and down, with a swing-arm's working cycle time of less than 60S. One truck with several garbage boxes can work, and realize the function of circle transportation .With dump function, the truck can discharge garbage directly from the garbage box .In generally , the garbage box can be fixed in pit or on the ground. According to customer's requirements, sealed cover can be installed, avoiding garbage leakage and environment pollution.

Name of Commodity and Specifications

Brand name:	Dong Feng
Chassis model:	DFL1120B
Drive type:	4×2
Overall dimension:	7185×2470×3300 mm
Curb weight:	5750 kg
Cabinet capacity:	6-7 m ³
Engine:	model:B170-33,170HP
Wheel base	3950mm
Fuel type:	Diesel
Tire specification:	9.00-20

Dongfeng 6-10 CBM Skip Loader Truck
