

basic specifications

| | | | |
|--------------------------------|---------------------------------------|-------------------------|--------------------|
| product models,name | CSC5161ZYSD Compression Garbage Truck | | |
| Gross weight (Kg) | 16000 | Driving type | 4 * 2 |
| Payload (Kg) | 6000 | Overall dimensions (mm) | 8500 * 2480 * 3150 |
| Curb weight (kg) | 9805 | Cab seats (men) | 3 |
| Approach / departure angle (°) | 9.19 | Front / rear hang (mm) | 1430/2570 |
| Axle No. | 2 | Wheelbase (mm) | 4500 |
| Axle load (Kg) | 6000/10000 | Max speed (km / h) | 90 |

chassis specifications

| | | | |
|----------------------|---|-------------------------|------------------------|
| chassis models | DFL1160BX2 | making | Dongfeng Motor Company |
| brand | Dongfeng | Overall dimensions (mm) | 7790 * 2370 * 2760 |
| Tire specification | 10.00R20 | No. wheels | 6 + 1 |
| Steel springs number | 7/9 6 + | Front track (mm) | 1880 |
| fuel type | diesel | Rear track (mm) | 1800 |
| emission standard | Euro iii | gear box | 6 forward |
| cab | D530 row and a half flat cab, electric windows lifter, central lock actuator, channel dashboard, with air conditioning. | | |

| engine model | engine manufacture | Displacement (ml) | Power (KW) |
|--------------|-----------------------------------|-------------------|------------|
| B190 33 | Dongfeng Cummins Engine Co., Ltd. | 5900 | 140 |

performance

| | | | |
|--------------------------------|--------------------|----------------------------------|-----|
| body capacity(m ³) | 14 | Hopper capacity(m ³) | 1.8 |
| Compression cycle time(S) | 30 | Unload waste time(S) | 40 |
| control system | manual + automatic | | |

Main Features

- 1,Can choose 240L(single bin,doubly bins)or 360L,660L,1100L standard bin lifting and turnover mechanism,You can also choose a ground hopper and other type loading mechanism.
- 2,Manual and automatic two sets of controls way, the operator can control the cabin, in the middle or the back side truck, very convenient and efficient.
- 3,Working in the emergency braking device stop button.
- 4,Garbage use body frame design, elegant, powerful structure, large capacity effectively.
- 5,Equipped with a special collection box, sewage directly into the sewage tank is in the process of compression, that is effectively prevent secondary pollution caused by sewage leaks.
- 6,With the hydraulic system design, the truck achieve the function of two-way compression waste, that will improve the compressibility , Create a compression ratio of up to 1: 2.5, the trash can reach more then 600~800kg/m³ after compression.

4 * 2 Dongfeng kingrun 14 CBM Compactor Garbage Truck
