

High Pressure ISUZU 6*4 clean truck

Vehicle name	Japanese 6x4 ISUZU 20000 liter Sewer cleaning suction truck	Volume (m3)	20
Dimensions (mm)	8150×2380×2920	Tank size (mm)	5350×1800×1300
Tank material	Carbon steel	Tank thickness (mm)	20
High pressure pump brand	Tianjin Tongjie / Italy Import	Pressure (Mpa)	16-19
Washing water flow rate (L/min)	120	Spray flow rate (L/min)	120
Cleaning width (m)	≥ 16	Washing water flow rate (L/min)	500-800
Flow rate (m3/h)	8	Water gun range (m)	38
Total mass (kg)	11450	Rated mass (kg)	6305
Curing quality (kg)	4950	Maximum speed (km/h)	103
Fuel type	Diesel	Emission Standards	Country five
Wheelbase (mm)	4600+1350	Tire specifications	295/80R22.5
Chassis brand / model	QL1250	Engine brand / model	I-SUZU
Power / horsepower (kW / ps)	257	Displacement (mL)	4500
Top loading configuration parameters			
The standard configuration	Install the sandwich power take-off, drive shaft, high-pressure cleaning pump, rated pressure 16Mpa, hydraulic reel, water level gauge, washing pipe, operation valve at the rear of the tank, equipped with a 60m 19mm high pressure pipe, 10 high pressure flushing heads .		
Optional configuration	Sprinklers, green sprinklers, front and rear sprinklers, side sprays, snow shovels, hydraulic lifting platforms, guardrail cleaning brushes can be added to meet the needs of different users.
