

Tank Capacity:max loading weight 8000kg.(other chassis with bigger or smaller capacity available)

Tank Material:Inner side:4mm 304-2B food-grade stainless steel

Middle:60-100mm Polyurethane foam insulation

Outer side:1.2mm 201 stainless steel

Feartures:1.CIP auto-cleaning with 360°cleaning angles

2.Use food-grade polished stainless steel for parts that touch with milk

3.Optimized tank design to minimize milk remaining.

4.Thick polyurethane foam insulation to ensure 24h temperature change <1°C

Below photo includes our different milk tank trucks.We supply from 2cbm mini tank to 20cbm heavy duty type,even larger semi-trailer tanks.Please contact us(mobile/whatsapp +86 186 0722 2773) to learn more details before placing order.

	Overall dimension(L*W*H mm)	5990*1960*2380
	Gross Vehicle Mass(kg)	Approx7300
	Curb weight(kg)	Approx3150
	Rated load(kg)	Approx4020
	Combustion/Fuel Type	Diesel
Chassis	Drive type/traction system	4*2
	Wheel base (mm)	3300
	Tyre type	6+1 7.00R16
	Transmission	5 forwarder,1 reverse gear, manual operation
E Engine	Model	4KH1CN5LS
	Engine Type	Vertical array, water-cooled, four-stroke, inter-cooling
	Maximum Horse Power(hp)	120 /88kw
	Displacement(L)	2999L
	Emission	EuroV
	maximum torque	220 N/m

Tanker body	Tank dimension	3400/1600/1200
	water tank volume	5000 Liters
	the material of tanker	stainless steel
	the thickness of tank body	4.5 mm
