

1. We can supply all brands of special trucks, such as Dongfeng, ISUZU, Sinotruck, Foton, Faw, north Benz(beiben), JAC, JMC, etc.
2. The drive type could be 4X2, 4X4, 6X4, 6X6, 8X4
3. Certification: ASM, ISO, BV, SGS, CCC etc.

Advantage:

1. The garbage bin is made of stainless steel with a filter plate inside, which can effectively prevent light objects such as leaves from blocking the air outlet and dust from being discharged.
2. Anti-corrosion, anti-rust and anti-virus treatment inside the water tank.
3. The cleaning structure of "Center 4 brush + rear suction cup", the front sweeping disk has automatic obstacle avoidance function, and the left and right sweeping brushes can be controlled separately.
4. According to the user's needs, it can be equipped with pre-shooting, post-sprinkling, spraying, self-cleaning reel, operation monitoring system, auxiliary suction device and snow shovel.

Product Name(mm)	Road Sweeper	Outline size(mm)	4650×1750×2250
Color	White	Engine Power(kw)	65
Total Mass(kg)	2840	Engine displacement(ml)	1240
Rated Mass(kg)	360	Vehicle weight	2350
Allowable passenger	3	Warranty	1 years
Tire specification	165R14LT	Tire numbers	4
Fuel type	gasoline	Garbage bin volume(cbm)	1.5 cubic (stainless steel)
Sweep rate	□95%	Cleaning width (mm)	2.2M
Maximum discharge angle of garbage bin	45°	Maximum diameter of inhaled particles	3-25Km/h
Maximum cleaning capacity (m2/h)	13000□/h-40000□/h	Maximum Speed (km/h)	90
