

Support services overseas Dongfeng fuel trucks 25000L

Details of			
Product Name Model		Fuel tankers CSC5253GYE4	
Total weight (kg)	24,300	type driving	6X4
Payload (kg)	15,350	Overall dimensions (mm).	2490 × 3300 × 10250.10550
Weight (kg)	8755	Seats taxi (male)	4
angle approach / departure (°).	30/11	Front / rear suspension (mm).	1250 / 2800.1450 / 2600
axis number	3	Wheelbase (mm)	1950 + 4250
Loading Axle (kg)	6500/6500/11300	Maximum speed (km / h).	80
Chassis Specifications			
Body Style	EQ1253GFJ	Make	Dongfeng Motor Corporation
brand name	Dongfeng	Overall dimensions (mm).	9545,10025,10505,10905 × 2470 × 3000.3300
Tire specification	10.00R20	tire of	8
Number of spring steel	10/10/10 8	previous track (mm)	1960/1960
fuels	diesel oil	follow-up (mm)	1860
emission standards	GB3847-2005, GB17691-2005 Euro IV	gear	8JS85E
taxi	D913 cab bedroom apartment with new, optional air conditioning.		
engine model	Engine production	Displacement (cc)	Power (kW)
ISB210 40	Dongfeng Cummins Engine CO., LTD.	5900	155
efficiency			
Capacity (L / m).	23000		
Materials Accessible	Carbon steel Q235		
Central Transport	Petrol or diesel		
the main characteristics			
With a baffle plate in the tank has the advantages of high strength, stability, security and transport.			
B, gas stations are installed to absorb or release oil pressure, vacuum and high speed.			
C, according to the user's tank is designed as a single channel or multiple channels with different oils.
