

## Dongfeng kinland 8x4 25CBM fresh milk transport trucks

Main technical parameters			
Product name	Fresh milk transport CLW5311GNYD3 truck		
Gross weight (Kg)	31000	Driver type	8 * 4
Loading rate (Kg)	17000,17065	large (mm)	11990 × 2500 × 3690
Decreasing weight (Kg)	13805	Driver's seat (person)	3.2
approach / departure (°)	28/11	back / front rear (mm)	1460/2980
Arrow no.	4	wheelbase (mm)	1850 + 4350 + 1350
Bracelet Weight (Kg)	6500/6500/18000 (2 axles)	Max speed (Km / h)	90
Number of tanks (m3)	25	Standard compartment	4
Chassis technical parameters			
Chassis model	DFL1311A4	Chassis name	trucks (second)
Brand	Dongfeng	manufacturer	Dongfeng Trade Vehicle Co., ltd
large (mm)	11475 × 2500 × 3030	Tires are not.	12
approach / departure (°)	28/12	Tire specifications	11.00R20
Spring steel no.	9/9/10	Front circuit (mm)	2040/2040
Type of fuel	diesel	Rear circuit (mm)	1860/1860
Release Standard	Euro III		
Engine model	Engine manufacturer	displacement (ml)	power (Kw)
L315 30	Dongfeng cummins engine Co., ltd	6700	230
description			
1.The The tank is made of stainless steel food grade and is used for transporting milk and other liquid foods. It's safe and reliable.			
2. Multiple tanks have been set to unload the materials separately, which can be transporting various food fluids at the same time.			
3, heat maintenance function: lifting □ 1 °C temperature medium tank 24 hours a day.			
4. Equipped with PIC cleaning device, easy to clean inside the tank.			
5. Standard parts are provided for maintenance.
